個人3D相全解決方案

這個創新的 3D 相片製作系統，將是主題公園及旅遊熱點的首選。遊客只需拍下一張平面相片（即兩視角圖像），系統便可在一瞬間將之轉化為裸眼的立體照片（8 個或以上視角圖像）。技術可大大地簡化由兩視角圖轉換成光柵用多視角立體圖像的過程，讓消費者可以享受即影即有立體相片的樂趣。這技術將會在中國及香港申請專利。

特色

- 快速3D相製作
- 支援多種格式 (例如: MPO)
- 操作簡易
- 裸眼3D顯示屏預覽
- 低成本打印

系統

- 悅圖系統
- 光柵打印機
- 3D相機 (選裝配件)
- 觸控屏 (選裝配件)
- 裸眼3D顯示屏 (選裝配件)

Instant 3D Photo Creation System

Stereo image

Fun Image

Personal 3D photo

Glasses-free 3D Display

Fun Image

Total personal 3D photo solution

This innovative 3D photo creation system is ideal for theme parks and tourist attractions. Tourists just need to take a stereo image (2 views image), then the system can convert it into an auto-stereoscopic image (8 or more view angles) in an instance. It significantly simplifies and shortens the conversion process from stereo image (2 views) to a mixed multi-views image (3D lenticular printing) one, enabling consumers to enjoy the fun of instant 3D photo-taking. The technology will apply patent in Hong Kong and China.

Features

- Fast 3D photo creation process
- Multiple input formats (eg. MPO)
- Easy operation
- Preview on glasses-free 3D display
- Low printing cost

Component

- FunImage system
- Lenticular printer
- Camera with 3D Lens (optional)
- Touch panel (optional)
- Glasses-free 3D Display (optional)
